

## **REINSTATE POLICY**

When the SUM for a license has been expired for more than 1 year, it falls into the reinstate category. This means a reinstate must be purchased in order to re-establish a current SUM. A gradually increasing scale will be applied according to the following:

1. For those licenses which SUM has been left lapsed for more than 1 year, a 100% price increase over the current SUM renewal price will apply.
2. For those licenses which SUM has been left lapsed for more than 2 years, a 200% price increase over the current SUM renewal price will apply.
3. No further price increase will be applied after the 200% price increase described in the previous bullet.

In order to offer a world class support and products, AFT invests valuable time and human resources in continuous research and development of our products. The main goal of the SUM program is to economically support these efforts that in turn provide improvements and advancements for our SUM subscribers.
